INTRODUCTORY.

It seems proper that, on assuming the presidency of Taylor University, I should say a few words to the patrons and friends of the institution.

The Fort Wayne College and Fort Wayne College of Medicine were long and favorably known to the people of Indiana, Ohio and Michigan. About

one year ago these two colleges were merged into the present institution which acquired a new constituency and assumed the name of the apostolic Bishop, Taylor. The design of the Board of Trustees and Faculty of this new institution is to build up a Great University on the basis of evangelical Christianity.

T. C. READE, PRESIDENT.

While we expect to have a full corps of educated and experienced teachers, we desire to fill our halls with honest, earnest, well-disposed pupils. Taylor University is not a pleasure resort. If any young person is looking for a place where he can while away a term or two in idleness and amusement, under the guise of attending college, let him turn his thoughts elsewhere: we have no place for him. Ours is a hive of busy workers and we want no drones. Neither is Taylor University a reformatory. A reformatory is a most excellent and necessary thing, but we have no appliances for such an institution; therefore do not send to us those boys and girls who have shown themselves incorrigible under the discipline of the home and the public schools. Our students are quiet and orderly, and we will not have them corrupted by vicious company.

In the distinctively educational work of the institution we shall aim, first of all, to be thorough. This is no time for superficial training. The age demands scholars rather than shams and quacks; hence we shall employ only such teachers as are masters in their respective departments.

We also wish to inform our patrons that it is our policy to look after the manners and morals as well as the intellectual training of our pupils. We hold that no education is complete that does not touch the whole man. The discipline of the school is paternal, mild yet firm, and no parent who intrusts his child to us need fear but that his health and morals will be carefully guarded.

This is in no sense a secular school, but religious and Christian, through and through. We hope to bring such influences to bear as shall lead all our students to a saving knowledge of Christ.

To all young ladies and gentlemen who really desire an education and are willing to pay the price of hard study, we extend a cordial welcome. "Come with us and we will do you good."

To the Normal Department we call special attention as we expect to make it equal to the best in the country, and we invite all teachers, both those who are in the work and those who are preparing for it, who desire a few terms of special training to come and give us a trial.

T. C. READE, President.

COURSES OF STUDY.

Four courses of study are presented in this catalogue. Students completing either the Normal or Academic course will receive a suitable diploma (no degrees), accrediting them as graduates of the department in which they have studied.

Students completing the Classical course will receive the degree of Bachelor of Liberal Arts.

Where the same studies are mentioned in the college classes of the Classical course as are named in the Normal and Academic courses, more advanced work is always meant.

Students must be thoroughly prepared on the first year of the *Normal* course before beginning the *Academic* course, or the *preparatory classical* course.

NORMAL DEPARTMENT.

The aim of this department will be to thoroughly acquaint young men and women with the common school branches: either as a foundation for a more extended course of study in one of the other departments of the institution, or for the purpose of teaching them in the common schools of the State. For the benefit of those who may wish to teach much drill work will be given, some of which will be elective.

It is thought more important for those who may wish to attend our school to know the character of the work to be done in each branch of study, rather than the time required to complete a course, and for such information the following paragraphs on the various branches taught in this department have been appended.

It is expected that the average student, who has completed the course prepared by the State for district schools, may finish this work and take one or two kindred studies, such as Rhetoric and Algebra, in two years.

SCOPE OF THE WORK IN THE VARIOUS BRANCHES TAUGHT.

Arithmetic.—This subject will be studied as a means of development and not as a memory drill. A knowledge of Addition, Subtraction, Multiplication and Division of Simple Numbers and of Common and Decimal Fractions will be necessary on entering this school.

Much of what is commonly known as “filling” will be dismissed with a passing notice in order that the essentials may have proper attention. Those who go out to teach will be expected to know the value of intellectual arithmetic and how to teach it to their pupils.

History.—In this subject we shall endeavor to develop the idea of the relations existing between historical events. This will necessitate—first, a fair knowledge of the facts of history; second, a knowledge of the effects of events upon the country and people. Such topics as the Constitutional Development of the United States, the Comparison of the Institutions of the North with those of the South, the Growth of Slavery, and Tariff Legislation will be discussed by both students and instructor.

Grammar.—Special attention will be given to correcting the habit of using incorrect expressions. Thought analysis and an understanding of the idioms of our language, together with the method of presenting the subject matter to young people, will occupy most of the time given to this most important branch of study.

Geography.—This subject will be taught with the following purposes in view: 1. To distinguish the continental features. 2. To learn the contour and chief relief features. 3. To ascertain the climatic and other characteristics bearing upon life. 4. To ascertain the value of the continent and its sections to man; the reasons of man's life here; organizations to which his settlement has led, etc. The map in dim outline will be made the basis of the work. An effort will be made to exchange much of the task work commonly done in this study for general culture.

Physiology.—This subject will be taught with special reference to the needs of the public schools. In the study of each branch of the subject an effort will be made to study real specimens rather than charts. The student's knowledge of drawings will be exercised in making drawings of the objects studied.

Reading.—This will be taught with a two-fold purpose in view: 1. The securing of good articulation, pronunciation and expression. 2. The development of the thought.

Mental Science.—This work will be carefully outlined for the students from day to day. The aim will be to teach the elements of mental science and to make as many practical applications of the study as possible to the work in other branches. Attention will also be given to the History and Growth of Education in this and other countries. Students will be required to have term examinations in the form of theses.

Penmanship and Drawing.—These subjects will be in charge of special teachers. Particular attention will be given to methods of presenting the subjects to pupils in the public schools.

MRS. GEORGE F. FELTS,

Head of Normal Department.

BOOK-KEEPING AND SHORTHAND.

First-class facilities will be provided for students wishing to take either Book-Keeping or Shorthand in connection with other branches.

ACADEMIC COURSE

FIRST YEAR.

FIRST TERM.

Latin—Harkness' Easy Latin Method.
German.
Algebra—To Common Factors and Multiples (Wentworth's School Algebra.)
Physics—To Friction and Machines (Appleton's School Physics.)

SECOND TERM.

(1) *Latin*—Harkness' Easy Latin Method.
German.
Algebra—To Involution and Evolution.
Physics—To Light.

THIRD TERM.

Latin—Harkness' Easy Latin Method.
German.
Algebra To Properties of Quadratics.
Physics—To Electricity.

FOURTH TERM.

Latin—Caesar (Harper & Tolman), First and Second Books of Gallic War.
German.
Algebra—Wentworth's School Algebra completed.
Physics—Appleton's School Physics completed.

SECOND YEAR.

FIRST TERM.

Latin—Caesar, Third and Fourth Books of Gallic War.
German.
Geometry—To Measure of Angles (Wentworth.)
History—Medieval and Modern Geography.

SECOND TERM.

Latin—Cicero, Three Orations, Prose Composition.
German.
Geometry—To Regular Polygons and Circles (Wentworth.)
History—Medieval. Modern Geography.

THIRD TERM.

Latin—Cicero, Three Orations, Prose Composition.
German.
Geometry—Books V. and VI. (Wentworth.)
Botany.

FOURTH TERM.

Latin—Vergil's Aeneid, First Three Books.
German.
Geometry—Books VII. and VIII. (Wentworth.)
Botany—Fifty plants analyzed.

THIRD YEAR.

FIRST TERM.

Chemistry—Elementary Manual (Eliot & Storer.)
Astronomy—To the Planetary System (Young's Lessons.)

Zoology—(Packard.)

..... (From Normal Course.)
 (From Normal Course.)

SECOND TERM.

Chemistry—Elementary Manual completed.
Astronomy—Young's Lessons completed.
 (From Normal Course.)
 (From Normal Course.)

THIRD TERM.

Chemistry—Analytical (Eliot & Storer.)
Mathematics—Trigonometry.
Geology.
English Literature.
 [From Normal Course.]

FOURTH TERM.

Mathematics—Surveying.
English Literature.
Zoology and Geology.
 [From Normal Course.]

PREPARATORY CLASSICAL COURSE

FIRST YEAR.

FIRST TERM.

Latin—Harkness' Easy Latin Method.
Greek—Grammar (Goodwin) and Reader (Leighton's Lessons.)
Algebra—To Common Factors and Multiples (Wentworth's School Algebra).
Physics—To Friction and Machines (Appleton's School Physics.)

SECOND TERM.

Latin—Harkness' Easy Latin Method.
Greek—Grammar and Reader.
Algebra—To Involution and Evolution.
Physics—To Light.

THIRD TERM.

Latin—Harkness' Easy Latin Method.
Greek—Jones' Greek Prose Composition with Grammar.
Algebra—To Properties of Quadratics.
Physics—To Electricity.

FOURTH TERM.

Latin—Cæsar (Harper & Tolman) First and Second Books of Gallic War.
Greek—Anabasis, First Book with Grammar.
Algebra—Wentworth's School Algebra completed.
Physics—Appleton's School Physics completed.

SECOND YEAR.

FIRST TERM.

Latin—Cæsar: Third and Fourth Books of Gallic War,
Greek—Xenophon, Anabasis, Second Book. Prose Composition.
Geometry—To Measure of Angles (Wentworth.)
History—Ancient. Ancient Geography.

SECOND TERM.

Latin—Cicero, Three Orations. Prose Composition.

ELECTIVE.

Greek, German, French, Zoology, Trigonometry
(Advanced.)

THIRD TERM.

Latin.
Rhetoric.
Old Testament History.

ELECTIVE.

Greek, German, French, Zoology, Analytical Geometry.

FOURTH TERM.

Latin.
Literature.
New Testament History.

ELECTIVE.

Greek, German, French, Zoology, Analytical Geometry.

Two elective studies will be required each term.

JUNIOR YEAR.

FIRST TERM.

History of Civilization.
Mental Philosophy.
Lectures on English Composition, twice a week.

ELECTIVE.

German, French, Hebrew, Chemistry, Calculus.

SECOND TERM.

English History.
Mental Philosophy.
Lectures on English Composition, twice a week.

ELECTIVE.

German, French, Hebrew, Chemistry, Calculus.

THIRD TERM.

Civil Government.
Logic.
Lectures on Oratory, twice a week.

ELECTIVE.

German, French, Hebrew, Chemistry, Astronomy.

FOURTH TERM.

Political Economy.
Moral Science.
Lectures on Oratory, twice a week.

ELECTIVE.

German, French, Hebrew, Chemistry, Astronomy.

Two elective studies will be required each term.

SENIOR YEAR.

FIRST TERM.

English Literature.
Geology.
Evidences of Christianity.

ELECTIVE.

Latin, Hebrew, Law Lectures, Physics.

SECOND TERM.

English Literature.
Geology.
Butler's Analogy.

ELECTIVE.

Latin, Hebrew, Law Lectures, Physics.

THIRD TERM.

English Literature.
History of Philosophy.
Butler's Analogy.

ELECTIVE.

Latin, Hebrew, Lectures on Medical Science, Botany.

FOURTH TERM.

American Literature.
Elements of Criticism.
Science of Religion.
Elocution.

ELECTIVE.

Latin, Hebrew, Lectures on Medical Science, Botany.

Two elective studies will be required each term.

ART SCHOOL.

Department of Taylor University.

PROSPECTUS.

"A talent for any art is rare; but it is given to nearly every one to cultivate a taste for art, only it must be cultivated with earnestness. The more things thou learnest, to know and to enjoy, the more complete and full will be for thee the delight of living."—*Platen*.

GENERAL INFORMATION.

The Art School calendar will correspond with that of the College year.

To regular students in elementary and advanced classes rooms open morning and afternoon Monday, Tuesday, Wednesday, Thursday and Friday. To the Saturday class from 9 to 12 a. m. To the students of the Literary departments of the college one hour four days per week. To students of the same departments, in Color, six hours per week. To students in Mechanical Drawing class eight hours per week.

No Criticism given on Friday.

Advancement of each student depends only on the degree of proficiency; examinations made monthly.

The school is well equipped for its present needs, and will be further supplied as necessity demands.

No so called copying is allowed in the school. From the beginning the student is taught to conceive the idea of form and of light and shade

AUGUST BRUDER,

* * Jeweler * *

Corner Calhoun and Wayne Sts.,

FORT WAYNE, - IND.

from the object, first of straight lines, then of curves, never losing sight of the large masses and forms in the details, going from the straight lined objects and curve forms to the parts of the figure, and thus to the antique and life classes. Clearness and accuracy of work, with no accidental touches, belong to the young student, and are earnestly sought for, while accuracy of detail after thorough drill in elementary principles becomes a part of the advanced pupil's work. "The business of education," according to Locke, "is not to perfect the learner in all or any of the sciences, but to give his mind that freedom, that disposition and those habits that may best enable him to obtain any part of knowledge he shall apply himself to, or shall stand in need of, in the further course of his life."

In order to secure the highest development of character, and the finest quality of work, which grow best from unity and harmony, one *requirement* is made: that each student shall enter the school in the spirit of following Polonius' advice to his son: "To thine own self be true."

COURSE OF STUDY.

Drawing, elementary drawing class, Antique—Life.
 Modeling and Casting.
 Perspective, one morning each week.
 Painting, in Oil, Water and Pastel.
 Composition.
 Design.
 Mechanical Drawing.
 Sketch Class.
 Sketching out of doors in season.
 Lectures, on Anatomy, History of Art, Home Decoration.

THE FACULTY.

PRESIDENT READE has been very successful in the ministry, but he leaves the pastorate to become the president of Taylor University because he has the conviction that educational work is his true field of labor, and because he believes that Fort Wayne is an excellent location for a great institution of learning. He expects to win the confidence of the people who represent the constituency of the University, and to secure a large enrollment of students and the money necessary to conduct an institution of learning worthy of the city of Fort Wayne and the wide field represented by the trustees and constituency of Taylor University.

Mr. Reade is an excellent speaker and thorough scholar. He will always be in demand in the pulpit and on the platform, and the instruction which he gives to the students of Taylor University by lectures will be one of the most attractive features of the institution. Our president is in the prime of life. In his early professional career he was an educator. He expects to devote the remainder of his life and all his energy and ability to Taylor University.

PROFESSOR PATTISON is a graduate of Wabash College and a post graduate of Cornell University. He has the reputation of being peculiarly able as a teacher and a disciplinarian. He is much in demand as an instructor in teachers' institutes, and has always been popular with his pupils.

He will live in the University building and have charge of the discipline in the building and on the University premises, subject to the general control of the president. Mrs. Pattison, as preceptress for the ladies, will be a valuable assistant to the professor in providing for the comfort and culture of the students.

PROFESSOR CLIPPINGER, who is so widely known in our patronizing territory, will remain in the faculty and work for Taylor University with his usual energy.

PROFESSOR FRY was with us last year. The esteem which his pupils have for him personally, and his reputation among them as a thorough instructor, are testimonials of which he has just reason to be proud.

The University has been very fortunate in securing MRS. GEO. F. FELTS as principal of the Normal department. She will make her department thoroughly systematic and valuable to those who are preparing to teach.

The REV. W. F. ZANDER will give to the University enough of his time to enable him to teach two classes daily. He is an agreeable gentleman and an able teacher.

MISS MARTHA E. TIBBALS will continue to be principal of the Art department. The increasing popularity of her work, together with the fact that she has engaged Prof. Carl Krauskopf to assist her, will certainly secure a large patronage to the Art Department of Taylor University.

Mrs. J. W. Goodrich remains with us to teach Stenography.

As will be seen on the page where the members of the faculty are named, the music department has not been provided for at the date of putting the catalogue to press (August 10, 1891.) The trustees expect to secure competent and satisfactory instructors in both the instrumental and vocal departments.

REGULATIONS.

ENTRANCE EXAMINATION.

Students bearing the personal certificate of a former teacher concerning studies satisfactorily completed will be given credit for the work they have done; otherwise they must pass an examination (usually oral) upon entering Taylor University. The purpose of this examination is to properly classify the students, and to insure that none take classes too far advanced for them, and that all have a sufficient amount of work.

DELINQUENT STUDENTS.

When lessons have been missed for any cause the student must make them up in full.

TERM EXAMINATIONS.

Examinations will be held at the close of each term and reports of each term's work will be given to the students.

Every student must register at the beginning of each term, before entering any of the classes.

The tuition and other fees should be paid to the registrar at the beginning of the term.

The Poor Man's Savings Bank.

Pays three times the interest to depositors of the ordinary savings bank, and is much safer, failure being impossible. Seven dollars a month for six and a half years matures ten shares and returns \$1,000 to the person making the payments.

THINGS REQUIRED.

1. Full employment of study hours in study.
2. Prompt attendance on all prescribed exercises.
3. Attendance at church at least once on the Sabbath.
4. Cheerful compliance with all temporary prudential rules established by the faculty.

THINGS PROHIBITED.

1. Visiting immoral places.
2. Use of intoxicating liquors.
3. Use of tobacco in University building.
4. Playing cards on University premises.
5. Use of profane or obscene language.
6. Throwing paper, slops or rubbish out of the University windows.
7. Noisy, disorderly or unseemly conduct of any description.

ROOMS.

The trustees have decided that only lady students shall room in the University building. This rule has been adopted in answer to the demands of parents and citizens. It is hoped that the advantages thus offered to the ladies in the University dormitory will secure a large attendance. Prof. Pattison and his family will live in the University building and make it a delightful home for the young ladies. The gentlemen can find rooms within convenient distance from the University building, in Christian homes. The registrar of the faculty will furnish information concerning rooms.

BOARDING.

The University building contains a spacious dining-hall. The ladies rooming in the University dormitory and gentlemen rooming in private residences will find at the table provided by the steward of the University the best advantages for board that can be secured for the rates.

EXPENSES FOR BOARD AND ROOM.

Board at University dining-hall, per week.....	\$ 2.20 1.50
Room rent in University dormitory, per term.....	5.00

Gentlemen can find rooms near the University building at a cost not exceeding the room rent in the University building, if two occupy one room.

Gentlemen can form clubs and board themselves at reduced rates.

Ladies rooming in the University building must furnish sheets, pillow slips, lamp, broom, towels and oil for light.

The fuel in the University dormitory (natural gas), from the first of November to the first of May, will cost \$1.75 per month, payable in advance at the first of each month. No cost from May to November.

All students boarding at the University dining-hall should be provided with napkins.

The University dining-hall will be conducted on the principle that healthy food and cultured table manners are essential factors in a good education.

EXPENSES FOR TUITION.**ACADEMIC AND NORMAL.**

Tuition for term of ten weeks.....	\$ 8.00
Incidental fee.....	1.00

ART.

Tuition per term, admitting students to all classes and lectures....	\$ 15.00
Saturday class, Drawing.....	3.00
Saturday class, Color.....	5.00
Students from other departments of the University, (drawing required in Normal course)	1.00
Same students, Drawing and Color.....	5.00
Mechanical Drawing.....	5.00

All these rates in the Art department are for a term of ten weeks.

GENERAL INFORMATION**CONCERNING TAYLOR UNIVERSITY.**

The institution was established in 1846, by the ministers of the North Indiana Conference of the Methodist Episcopal Church. It was chartered in 1847 as the Fort Wayne Female College. This school was consolidated with the Fort Wayne Collegiate Institution for Young Men in 1853, the new institution assuming the legal name of The Fort Wayne College.

The old building was erected in 1846-'47, the corner-stone being laid June 23, 1847. It is located on a plat of ground containing three acres, at the west end of Wayne street, Fort Wayne, Allen county, Indiana. The location is one of the most desirable in the city.

Fort Wayne is a city of 40,000 inhabitants, a railroad center accessible from ten different directions, and is a well ordered and healthful city.

In 1884 an addition 60 x 73 feet and four stories high was erected. This stands immediately in front of the main edifice of the old building, and presents a handsome appearance. This addition contains chapel, recitation rooms, library, dining-room and laboratory. The recitation rooms of the building have been partitioned into music rooms and offices, and are well fitted for those purposes.

TAYLOR UNIVERSITY.

A financial crisis having fallen upon the Fort Wayne College, its trustees were authorized to sell the property of the institution, and they did so to the Taylor University.

Taylor University is named in honor of Bishop William Taylor, formerly a local preacher of world-wide fame and most remarkable achievements, but now Bishop of the Methodist Episcopal Church for Africa.

The trustees of the University represent three different constituencies, viz., The National Association of Local Preachers, the Fort Wayne District of the North Indiana Conference, and the Fort Wayne College of Medicine.

LITERARY SOCIETIES.

The Thalonian Literary Society, the oldest society of the institution, was organized in 1853. Among the former members are found some of the most prominent citizens of the city or State.

The Philathethan Society was organized in 1878. It has a large membership and is rapidly increasing in influence.

Each of the societies has an elegantly furnished hall. Both societies are open to ladies and gentlemen, and all students are recommended to identify themselves with one or the other, as thereby they will receive an essential training that only the literary society can give.

THE PEARSON ORATORICAL PRIZE.

Rev. W. F. Pearson, D. D., of Philadelphia, has provided a prize of \$25 in gold for that gentleman student of Taylor University who shall excel in an oratorical contest, to be held in the University auditorium, on Monday evening of commencement week. Not less than four students of Taylor University, selected by the faculty from members of the literary societies, shall contest for this prize. The judges of the contest will be selected by the President of the University, and the decision will embrace both the matter of the oration and the manner of its delivery.

THE MOONEY ESSAY PRIZE.

The Rev. Geo. W. Mooney, of New York City, has provided a prize of \$25 in gold for that lady student of Taylor University who shall excel in an essay contest. The conditions of the contest and the night on which it shall be held to be the same as those of the oratorical contest.

THE CHRISTIAN HERALD PRIZE.

Louis Klopsch, A. M., Ph. D., publisher of the *Christian Herald*, New York City, offers the *Christian Herald* prize of \$50 to the victors in a debate between six contestants, three affirmative and three negative, the \$50 to be divided equally among the victors. The judges are to be selected by the President of the University. This contest is open to both ladies and gentlemen.

THE APPEAL OF TAYLOR UNIVERSITY TO OLD STUDENTS.

Let every former student of the Fort Wayne College who expects to attend some school during the year 1891-92 come to Taylor University, and bring as many others as possible with him.

Let all the old students of Fort Wayne College who are now in business make a special effort to turn a great tide of students to Taylor University.
